

VAPOUR CONTROL LAYER

LDPE Vapour Control layer produced to a high standard which meets all NHBC and Building Control requirements.

PHYSICAL PROPERTIES

Thickness (μm)	125	250
Width (m)	2.5, 2.7, 4.0	2.5, 2.7, 4.0
Length (m)	50	25
Elongation (%)	> 400	> 400
Water Vapour Resistance (MNs/g)	267	534

PHYSICAL APPEARANCE: The film may contain gel particles and streaks, but holes and tears shall be absent.

Storage

Rolls should be stored undercover and on a flat level surface, prolonged exposure to sunlight will degrade the product
