

CLIMCOVER Roll Alu2

Aluminium faced glass wool roll for external insulation of metal ducts and HVAC equipment

CLIMCOVER Roll Alu2 is light-weight and flexible glass wool roll for external insulation of ventilation-, air-conditioning ducts and for HVAC equipment. It is used for the thermal insulation and preventing condensation. The roll is faced on one side with a reinforced pure aluminium foil that acts as vapour barrier. The reinforcement mesh increases the resistance to tearing and punching of the aluminium. Roll is flexible and due to unique fiberstructure it can be easily bent over different shapes and parts of HVAC systems. The facing can be used as shiplap that permits the easy assembly and connexion between wrap insulation pieces.

The roll is easy to cut with standard tools i.e. knife. CLIMCOVER Rolls are manufactured from inorganic chemically biosoluble materials and do not include anything that would have effect on corrosion and shall not facilitate microbial growth.

THERMAL INSULATION

Avoid heat losses and prevent condensation

LIGHTWEIGHT

Lightweight rolls are easy to work with and easy to bend

FAST INSTALLATION

The highly flexible product is easy to bend over different shapes and parts, and easy to cut with standard tools

MECHANICAL RESISTANCE

The reinforcement mesh increases the resistance to tearing and punching of the aluminium

CHARACTERISTIC	SYMBOL	UNIT	QUANTITIES AND DECLARED VALUES			STANDARD
Thermal conductivity	T	[°C]	10	50	100	EN 12667
	λ	[W/(m·K)]	0.032	0.039	0.049	
Maximum service temperature	-	[°C]	<150°C (for the facing 80°C)			EN 14303

CHARACTERISTIC	SYMBOL	UNIT	QUANTITIES AND DECLARED VALUES	STANDARD
Fire behaviour	-	-	Non combustible, Euroclass A2-s1, d0	EN 13501-1
Water behaviour	SD	m	≥ 100	EN 12086
Application field	-	-	ISOVER CLIMCOVER Roll Alu2 provides topclass thermal insulation for HVAC duct systems and equipment. Alufacing provides efficient watervapour barrier when intact and seems carefully taped.	EN 14303
CE marking	-	-	MW-EN 14303-T2-MV1	EN 14303
Environmental sustainability	-	-	ISOVER CLIMCOVER Roll Alu2 is manufactured from up to 86% recycled glass that would otherwise go to landfill. This makes ISOVER one of the most environmentally sustainable insulation products on the market today.	-
Quality management	-	-	ISOVER is certified according to EN ISO 9001 and EN ISO 14001	EN ISO 9001 EN ISO 14001
Delivery form	-	-	Standard dimensions (check product details and availability from your local ISOVER supplier)	-
