## AQUAPANEL® Exterior Dispersion Plaster – white

Exterior render - ready-to-use

## Description

AQUAPANEL® Exterior Dispersion Plaster – white is a ready-to-use exterior render with a pasty consistency as supplied. It allows diffusion, is water-repellent, and can be worked by hand or using a machine. For application on AQUAPANEL® Exterior Basecoat and AQUAPANEL® Exterior Basecoat – white. The product is flexible and can absorb thermal expansion and contraction without delamination under normal conditions.

The composition of AQUAPANEL® Exterior Dispersion Plaster – white prevents fungal attack on outside walls.

AQUAPANEL® Exterior Dispersion Plaster – white is applied onto dry reinforcing layers of AQUAPANEL® Exterior Basecoat/ AQUAPANEL® Exterior Basecoat – white and AQUAPANEL® Reinforcing Mesh, after the application of AQUAPANEL® Basecoat Primer.

## Mixing

Stir the content of the buckets thoroughly. Look for the same batch numbers or mix together enough plaster to cover a complete area or section. Apply with a stainless smoothing trowel according to grain size, and then with a PVC or high-grade steel tool according to the desired structure. Wash tools in clean water immediately after use.

## Technical data

EN 15824

Reaction to fire	E
Water absorption	W2
Water vapour permeability	V1
Thermal conductivity $\lambda_{10, dry, mat}$	0.7 W/(mK)
Grain size	2 mm

## Material coverage

- 3.1 kg/m<sup>2</sup>
- approx. 8.1 m<sup>2</sup>/25 kg pail

The figures given here should be viewed as estimates. Actual values will depend on the evenness of the background and changes in plaster layer thickness. A trial application is recommended.

## Working time

Working time: approx. 12 minutes/m<sup>2</sup>

## Working temperature/climate

Do not use when air and/or wall temperatures are below +5°C. Protect fresh plaster from the effects of frost and rapid drying.

## Method of delivery/storage

- 25 kg/pail
- Store up to 24 months in frost-free conditions (+5°C to +25°C).

Item code: 87268
