

Honeycomb Panel

Technical Data Sheet

Mayplas Honeycomb Panel is a lightweight & robust partition panel that is ideally suited to the commercial interior fit out industry. Mayplas Honeycomb Panel is manufactured using a paper based honeycomb core which is factory finished with a 9.5mm gypsum based board on both surfaces providing a sandwich panel type construction.

Product Specification			
Overall Thickness	46mm		
Outer Surface	9.5mm Gypsum Based Board (to both surfaces)		
Inner Core	27mm 100% Recycled Honeycomb Core (25mm Cell Size)		
Panel Dimensions	1200mm x 2400mm	1200mm x 2700mm	1200mm x 3000mm
Pallet Quantity	20 per pallet	20 per pallet	20 per pallet
Board Weight	39kg/panel	44kg/panel	49kg/panel
